Content Pillars

Five strategic pillars anchor every post — each serving a different role in building the brand.

1

Our Work

Goal: Awareness

Before & after setups, completed decoration photos, venue transformations. Shows the quality and craftsmanship of Vyshnav Padband in action.

Example posts: Wedding mandap transformation · Birthday balloon arch setup · Pooja flower arrangement · House warming decoration reveal

2

Behind the Scenes

Goal: Engagement

The making process — flower sourcing, tying padband, team at work, early-morning venue prep. Humanises the brand and builds genuine trust.

Example posts: 4am venue setup reel · Marigold market visit · Jasmine padband tying process · Team walkthrough before event

3

Festival & Occasion Tips

Goal: Trust

Educational content — which flowers suit each occasion, colour themes, decoration ideas for different budgets. Positions Vyshnav Padband as the expert.

Example posts: Best flowers for Onam · Wedding colour themes guide · Budget-friendly birthday decor · Auspicious flowers for pooja

4

Client Moments

Goal: Social Proof

Customer reactions, reviews, happy family photos, testimonials. Real people trusting Vyshnav Padband with their most special days.

Example posts: Bride's mandap reaction reel · Client review graphic · Family celebration moments · Video testimonial from client

5

Offers & Bookings

Goal: Sales

Packages, seasonal offers, early booking discounts, what is included in each plan. Direct call-to-action posts to drive DMs and enquiries.

Example posts: Wedding season 2026 package · Birthday decoration pricing · Early booking discount · Referral offer for existing clients

Tools Used

ChatGPT (OpenAI)

Used for all content ideation — generating content pillars, 30 post ideas, caption templates, hashtag strategy, and the 4-week posting schedule. Prompts were written to target the specific brand (Vyshnav Padband), niche (event decoration), and audience (Kerala families, brides-to-be).

Skills demonstrated: AI-assisted ideation · Prompt engineering · Content structuring

Canva AI (Magic Write)

Used to refine and polish caption copy inside Canva. Magic Write was prompted to match the brand tone (warm, traditional, celebratory) and rewrite ChatGPT output for clarity and emotional impact.

Skills demonstrated: AI copy refinement · Brand tone matching · Design integration

Canva (Design)

Used to design the full content strategy document — cover page, pillar cards, post calendar, caption templates, and hashtag bank. Template chosen and customised with brand colours and typography.

Skills demonstrated: Document design · PDF export · Portfolio presentation

Claude (Anthropic)

Used to structure the overall strategy, build the complete content plan, and generate the final portfolio-ready document. Claude helped organise all ChatGPT outputs into a coherent, professionally formatted deliverable.

Skills demonstrated: Strategy structuring · Document generation · Portfolio build

This content strategy was built using AI tools to reduce planning time by approximately 70% compared to manual strategy work. All content is tailored specifically to Vyshnav Padband's audience, services, and regional market.
